

# IT'S TIME FOR NEW IDEAS TO TAKE ROOT

THE CAMBIA GROVE RENDERINGS

*For nearly a century, Cambia Health Solutions has found new ways to solve our health care problems with groundbreaking innovations. Now, Cambia believes the only long-term solution is to transform the system to make it more economically sustainable and person focused – and we can't do it alone.*

## • CONVENE

*Connect, organize and support the community of health care stakeholders and innovators*

## • CATALYZE

*innovation with capital and resources*

## • IDENTIFY

*meaningful problems, find solutions and support getting them to scale*

## GET TO KNOW THE CAMBIA GROVE

We are establishing The Cambia Grove as a health transformation collaborative – a place where innovators and entrepreneurs can work closely with local and national stakeholders to find solutions to pressing health care challenges.

The Cambia Grove is a new type of health care work space. Its open design will foster collaboration and allow us to convene a diverse array of regional and national leaders for workshops, community meetings and networking events; support the launch of startups; and provide a shared “home” for the local health care innovation ecosystem.

The Cambia Grove can host events large and small, support entrepreneurial teams residing with us for months and act as long-term host to community resources.

We invite local and national industry thought leaders to gather at The Cambia Grove and interact with the next generation of health care innovators...and get down to work.

# THE ROOTS RUN DEEP

*The Pacific Northwest is the hub for technology, retail and health care innovation. The Cambia Grove will tap into this dynamic local market to catalyze the development of a vibrant local health care innovation cluster.*

We believe Seattle is positioned to be the leading national market for health care transformation. We are launching The Cambia Grove to connect, organize and support this community of leaders as they disrupt the system with new business models that make health care more affordable and put consumers in the driver's seat. Together with our partners, we are planting the seeds of innovation in The Cambia Grove.

**The Cambia Grove and its partners will:**

- Host focused workgroups and projects
- Organize regular networking events
- Interact with health care executives
- Create commercial pilots and proof of concept opportunities for innovative companies
- Support the commercialization of new innovations
- Provide office space for select entrepreneurial teams
- Organize national innovation showcase events

*The Cambia Grove will host a variety of health care focused programs and make our space available to the broader community. We will match our work and events with an equally dynamic online and social media presence. Be part of history and join us in growing the next generation health care system.*
