

OUR DNA

Assembling & Empowering The Teams

“What’s a win?”

Innovation, Research & Development “Seal Team 6”

- New stand alone research and development org comprised of technology fellows and architects
- Leverage discovery-driven innovation techniques (e.g. observation, experimentation, and rapid prototyping)
- Free to maneuver and discover; not hindered by organizational construct and processes
- Focused on technical innovation; not necessarily guided by business demand (e.g., Augmented & Virtual Reality, Medical Device Security, Next Generation Data Integration Solutions, Voice Interaction, Edutainment)

IT&S Strategy

- Influence key areas of discovery opportunity
- Maintain visibility and render opinions throughout engagement lifecycle

“Tiger Team” - 2018

- Dedicated “fast pass” team (e.g., PM, BA, Dev, Arch)
- Agile, improved-response to multiple and increasing discovery needs (e.g., vendor evaluation, POC, etc.)
- Reserved for high-priority, transformational projects
- Staff through TAP, EA, Strategy, PMCOE, and/or Data & Mobile Innovations teams

PD/Lifecycle Management/IS&O

- Assemble “solution clusters”
- Identify opportunities to further leverage existing solution capabilities
